

## How MITCA got its start is recounted in Bob Park's words:

I (Bob Parks) was never Pres. of MITCA, but the organization was my idea. The wrestling coaches had an organization and always met at Thurston HS, where I taught and coached. I thought it would be a good idea to have one too. The MEA had their meetings at Livonia Bentley HS and Lofton Greene, the chairman, asked me to have a panel for track coaches, which I organized. I announced at the meeting that anyone who would like to organize a track coaches assn. should stay around after the meeting. A number did and we had our first organizational meeting at Thurston a few weeks later. I can't remember who all were there, but Jack Boughton as for sure, probably Kermit, maybe Norb Badar, probably Don Sazima. We elected Don as the first Pres. and the first clinic was held at Seaholm, for both coaches and athletes. I spoke on the hurdles. It took off from there.

The story below is a record of MITCA's history from 1959 to 1976 as written by Kermit Ambrose.
